Summary

Full-Stack Web Developer with 2.6+ years of experience in building and deploying scalable web applications using the **MERN stack** and cloud technologies. Proficient in **JavaScript, React.js, Next.js, Node.js, Express.js, MongoDB, MySQL, and AWS** for developing secure, high-performance solutions. Experienced in implementing **CI/CD pipelines** for automated development workflows. Passionate about creating clean, maintainable, and user-focused software solutions.

Skills

- **Languages:** JavaScript, TypeScript, Java, SQL
- **Frontend:** React.js, Redux Toolkit, Next.js, Tailwind CSS, Bootstrap, HTML, CSS
- **Backend:** Node.js, Express.js, REST APIs, Authentication (JWT, OAuth)
- **Databases:** MongoDB, MySQL
- **Tools & Cloud:** AWS (Amplify, EC2, S3 Bucket, RDS, Route 53), Prisma ORM, Git, GitHub Actions, Cursor AI

Experience

Associate Software Engineer, Gigatorb Software Pvt Ltd – Indore, IN   Jan 2024 – June 2025

- Developed modern full-stack web applications using Next.js, React.js, Node.js, Express.js, SQL, and MongoDB.
- Integrated Material UI, ShadCN, and Tailwind CSS to build responsive and user-centric interfaces.
- Built and optimized scalable RESTful APIs using Prisma ORM with both SQL and NoSQL (MongoDB) databases.
- Designed and implemented **Cron Jobs** for automated task scheduling including sending user notifications and subscription renewals.
- Deployed and managed projects on **AWS** (Amplify, EC2, S3), ensuring high availability and scalability.
- Utilized **Firebase** as a cloud database for scalable, real-time data storage and seamless backend integration.
- Created CI/CD pipelines with **GitHub Actions**, reducing manual deployment effort by 60%.
- Integrated **AWS SNS** and **AWS SES** to automate SMS and email notifications, improving user engagement and streamlining communication workflows.
- Used Cursor AI for rapid debugging and codebase understanding, reducing bug-fixing time and improving code quality.

Software Engineer, MazeX Media – Bhopal, IN   Jan 2023 – Dec 2023

- Built and optimized responsive web pages to ensure a seamless user experience across various devices.
- Integrated APIs and enhanced application features, while gaining proficiency in Redux and Redux Toolkit for efficient and scalable state management.
- Built responsive React applications with reusable components, state management, and seamless API integration

Projects

Salus Pharmacy

- A medicine e-commerce app allowing users and doctors to buy medications, while pharmacy staff manage stock, fulfill orders, and ensure efficient distribution of pharmaceutical supplies.

Story of Pets

- Full-stack web application designed to help pet owners easily create profiles, register their pets, and keep a daily journal tracking their pets' activities and well-being.

Port Cost

- PortCost is a specialized marine industry application that helps shipping companies calculate and manage port expenses by customizing service costs, streamlining billing, and improving financial accuracy efficiently.

Education

Institute of Engineering & Science IPS Academy   Sept 2016 – July 2020

- Bachelor of Engineering in Computer Science and Engineering
